

LIQUINOX GARDEN KIT

Before you connect anything.

Check the bottle. Protect yourself. Stop until the exact applicator instructions match the device in your kit.

SAFETY GATE ACTIVE

Warning. Causes skin irritation. Causes serious eye irritation. Starter launch is paused while GreenPlace verifies the exact applicator model and the complete label on the physical quart bottle. Do not connect or use a kit if either one does not match the instructions included with it.

CHECK FIRST

Three checks before the seal opens.

1. **Match the bottle.** Confirm Liquinox GROW 10-10-5 and 1 Quart (32 fl oz). Read the complete bottle label before opening.
2. **Protect yourself.** Wear protective gloves, eye protection, and face protection. Keep concentrate out of reach of children and away from food and drink.
3. **Check the equipment.** Find the model-specific applicator instructions packed with the kit. Do not assume a connection, dial, ratio, or coverage.

The bottle label and the exact applicator instructions are the authority. This guide supports them and never replaces them. Stop if the bottle identity does not match, the seal is damaged, the bottle is leaking, or the kit does not include instructions for the exact applicator model.

USE AND STORAGE

Control the concentrate.

While you work

- Use only where the bottle label allows, with adequate ventilation.
- Avoid breathing mist or vapor. Keep product out of eyes and off skin and clothing.
- Do not mix with other chemicals.
- Apply only to plants or areas allowed by the bottle label. Prevent concentrate and spills from entering drains or waterways.

When you finish

1. Close the bottle tightly and keep it upright in its original container.
2. Clean and store the applicator exactly as its manufacturer directs.
3. Wash hands after handling. Wash contaminated clothing before reuse.
4. Store locked in a cool, dry, ventilated place, away from direct sunlight, food, and drink.

EXPOSURE OR SPILL

Act promptly.

Eyes

Rinse cautiously with clean water for at least 15 minutes. Remove contact lenses if easy to do. Seek medical attention.

Skin

Remove contaminated clothing and wash with plenty of soap and water. Get medical advice if irritation continues.

Swallowed

If the person is conscious and able to swallow, have them drink water or milk. Do not induce vomiting. Contact a physician or Poison Control immediately.

Inhaled

Move to fresh air. Get medical help for breathing difficulty or persistent symptoms.

Call 911 immediately if someone collapses, has a seizure, has trouble breathing, or cannot be awakened.

Poison Control: 1-800-222-1222

Chemical incident information (Liquinox SDS): CHEMTREC 1-800-424-9300

Source boundary

Safety language follows the Liquinox GROW 10-10-5 Safety Data Sheet dated March 16, 2026 that is linked from Liquinox's current Grow product page. Liquinox's separate product-information index still links an older data sheet. Its public Grow label is a 1-gallon file, not proof of the complete label on the physical quart bottle, and its public sources differ on general application timing. Until GreenPlace proves the exact quart label and included applicator, this guide omits rate, frequency, connection, dial, coverage, pressure, cleaning, and rinse instructions.
